

### Features

- \* Rack mounted design in 2U height
- \* LCD English display and 1-10 channel status indicator.
- \* Detection over speaker line impedance, open circuit, short circuit and overloading.
- \* Timely detect speaker loop line.
- \* Speaker line detection no interrupt with music broadcasting or paging
- \* Indications include indicator color change and buzzer alarm when speaker line impedance has been changed
- \* Each channel detection Max. 2000W speaker loading
- \* LCD real time display speaker line's status and power
- \* Suitable for 100V and 70V line speaker system
- \* Ten channel inputs and outputs
- \* AC120V or 230V and DC 24V DC operation
- \* Pre-setting memory function even in case of power off

### Specifications

<b>Model</b>	T-6242
<b>Power Supply</b>	~110V/60Hz or ~230V/50Hz & DC 24V
<b>Power Consum</b>	20W
<b>Dimension</b>	484x303x88mm
<b>Weight</b>	5.5Kg
