

Features

- * Be at the same time charge for 16 lithium-polymer-specific batteries.
- * Intelligent charge management circuitry, which can effectively protect the battery.
- * Has a telescopic rod and pulleys to facilitate movement.

Specifications

Model	TH-0520
Power Supply	AC 120V or 220V; 50-60Hz
Power	200W
Charge-Digit	16
Unit Maximum Charge Current	700mA
Charging Time	About 8-10 hours
Status Indicator	Flashing red light - in charge Green - Charging completed
Operating Temperature	0°C-40°C
Dimension	620x370x260mm
Weight	10.74kg (without batteries)
