

Features

- Built-in 100v/70v transformer
- Waterproof projector type loudspeaker
- IP66 waterproof level
- Power output 150W @100V
- Fiber-glass enclosure
- Mounting bracket T-2700B is optional
- Supreme long distance sound dispersion
- Ideal for park, stadium & train station outdoor use

Description

The T-2700 is a waterproof stadium horn speaker built-in 70v/100v transformer. The 70v/100v transformer technique reduces line losses on longer distance and allows easy parallel connection of multiple loudspeakers.

The built-in 12" horn speaker driver is designed of wide frequency response 120-18kHz, the rated power output 150W could meet different applications varies from room size and ambient noise surroundings.

The metal enclosure and metal bracket are of black color. Easy and secure wall mount installation through the supplied mounting bracket.

It is ideal choice for industrial and commercial applications in the vast outdoor area of train station, stadium where background music and paging is needed.

Specification

Model	T-2700
Power Taps @100V	150W
Power Taps @70V	75W
Impedance	Black: Com White: 67Ω
SPL(1W/1M)	104dB
Max. SPL (Rated W/1M)	124dB
Frequency Response (-10dB)	120-18KHz
Finish	Baffle: Organic resin, Black Grille: Steel, Black
Speaker Driver	12" x 1 1.3H x 1
IP Rate	IPx6
Dimensions	535 x 533 x 810mm
Weight	24.2Kg
Mounting	With mounting bracket fixed by screw
